SAMMY ROBINSON

We of the Junior class began our activities for our busiest and happiest year yet, under the leadership of our sponsors, Miss Elizabeth Miller, Mrs. Philip A. Sheffield, and Mr. N. C. Young.

We jumped into the swing of things by selecting our Junior play and frantically begging for aids. The play was a big success and the profits we heaped financed the Junior-Senior Banquet which we had been thinking about and planning since we were freshmen.

Our heads were still swimming with plans when the big event arrived . . . the Banquet and Dance! We could hardly believe that this day of much planning had come . . . and then gone . . .

As we close our third chapter in this volume of life at I.A.H.S., we remember the preceding years and what they brought us, and look forward to the future years for what they too will bring. Our next and last year here at I.A.H.S. will, we know, be the best and we are looking forward to the heartaches and happiness that will make up this year. We know that when we graduate we will be proud to be remembered as the class of '58.

SOPHOMORES

We of the Sophomore Class began our activities under the leadership of our capable officers: Winfred Adams, president; Bob Hawkins, vice president; Harold Sheffield, secretary; Sara Rushing, treasurer; Phil Sheffield, reporter. We think our sponsors Mrs. J. S. Crubaugh, Mrs. A. V. Weatherford, and Mr. G. C. Loden are the very best.

Yes, we are the little fish in the big pond . . . again . . . Class elections . . . Guess who's going steady now . . . Half of classes away on big band trip to Columbus to appear on television . . . Begging for the family car—lining up double dates . . . Early morning get-togethers in the front hall . . . The thrill of seeing your name on the Who's Who ballot (Even if you don't win) . . . Friendly rivalry in the polio drive . . . Perfecting the technique of squeezing in the lunch line . . . Carrying tons of books while lockers are completely filled with vacancy . . . Knack of using sign language in the library to avoid the crack of Mrs. Deaton's whip . . . Learning to love the sound of the 3:05 bell . . . The traditional attempt to sneak in the Junior-Senior Banquet and Dance . . . Looking forward to two more years . . . Just think when we're Seniors . . . Dignity, always dignity. . . .

FRESHMEN

CEBURN GRAY *Vice President* CAROLYN MORRIS *Secretary* JERRY MAXCY *President* BETTY JEAN EVANS *Treasurer*

As we climb the educational ladder, we find ourselves on the ninth rung stationed at the Itawamba Agricultural High School. It is with pride we find our places on this campus, for at this point we are made to realize that goals have been reached, progress made, and accomplishments attained.

We entered the routine of our high school career by choosing our class officers. Johnnie Senter was elected class editor for the *Mirror* and was selected by the class as freshman maid to attend the Homecoming Queen. Too, she and Bobby Joe Wilson were elected to join Jerry Maxcy in representing the freshman class as Student Council members. When the selecting of class favorites came, Charles Ceburn Gray and Betty Evans were elected as Mr. and Miss Freshman Class.

Yes, we are proud to be a part of I.A.H.S. Even though we are conscious that hard spots must be covered and tough rungs reached; yet, we believe the joys and pleasures will overshadow the work and toil. As we prepare ourselves for the future and enjoy the passing days, we invite you to watch us climb the ladder to higher education.

The Science Clubs of America emblem is designed to symbolize science. Directly and by implication, most of the fields of scientific endeavor may be read into the symbolism.

At the center of the pin is a test tube, partly filled with liquid and solid giving off gas which burns at the mouth of the tube. On either side are symbolic representations of lightning flashes (or radio waves) arranged in wing-like form. Beneath there is a sector of a gear.

SAFETY DRIVING CLUB

Every year 38,000 Americans are killed in traffic accidents. Millions more are injured, and four billion dollars are lost as a result of property damage. It's easy to see why this has become a major national problem.

It has been reported that at least 85% of all traffic difficulties involve human failures.

This being true, the problem presents itself: How can we improve the driver? The answer to this seems apparent—he must be taught. And one of the best ways to accomplish this is through Driver Education Programs! The American Association of School Administrators' yearbook states it exactly:

"It is to the school particularly that we must look for the development of the knowledge, the attitudes, the habits, and the skills that are necessary if we are to live with reasonable safety in the modern world."

JUNIOR CLASSICAL LEAGUE

ITAWAMBA CHAPTER

The purpose of the Junior Classical League is to encourage an appreciation of the peoples of ancient Greece and Rome—their language and their way of life—and to give some understanding of the debt of our culture to them.

All high school students of Latin are eligible for membership. Varied programs showing the ties between modern and classical times are given at the semi-monthly meetings. The high light of this year's activities at IAHS will be participation in the "Latin Tournament" which is sponsored by the Mississippi Classical Association.

Dear Loraine,

I'm not going to say Good luck, etc. because I'll be up here next year to worry you with all my troubles. But I will say I have had lots of fun being with you on the various trips we took! You have helped me more than you'll ever know just by being Loraine. I'll never be able to pay you back for everything you've done, especially getting Ann + me out of the wrong room. Take good care of that '57 Plymouth! I am sure you will always continue to be the blessing to people as you are now to me.
